

5 STEPS TO CLEANING YOUR GLASSWARE

Step 1

All sinks should be thoroughly cleaned prior to washing glasses

Step 2

Sink 1 — Pour any drink residue into a funnel inserted into the overflow tube. Wash the glass in hot water and low suds, non-oil based detergent using cleaning brushes. Scrub the glass with the cleaning brushes to remove film, lipstick and other residue. Rotate the glass on the brushes to scrub all interior and exterior surfaces.

Step 3

Sink 2 — Rinse the glass, butt down, in cold running water.

Step 4

Sink 3 — Rinse the glass, butt down, in warm water and measured amount of Sanitizer.

Step 5

Air dry the clean glass on a corrugated drain board. Towels impart odors and lint, and also may be washed in petroleum detergents.
